

Summary of West Springs Hospital Financial Assistance Policy (PLS)

We offer financial help to our patients who cannot pay all or part of their medical bills. You may apply for help through our Charity Care program. Qualification for the Colorado Indigent Care Program (CICP) also qualifies you for our program.

What is Charity Care?

- You may qualify for discounted care based on your household income. Your income may be up to three times (300%) of the Federal Poverty Level (FPL).
- Covers: Emergency and medically necessary care.

Which Providers at West Springs Hospital are included?

- All providers of care at West Springs Hospital and Transitions at West Springs participate with our charity care program.

Who can get help through Charity Care?

Find the number of people who live in your home. Then follow across to find where your family's income fits. The top line of that row is the percentage of charges you owe.
