The Women's Recovery Center

An intensive, healing, women-only residential
rehabilitation program and Colorado's only
center where women and their children can
stay together during addiction treatment.

THE WOMEN'S RECOVERY CENTER

3210 E Road, Clifton, Colorado

MIND SPRINGS *health*

Prevention. Care. Recovery.

A NEW PLACE TO RECOVER & REBUILD

The Women's Recovery Center has always been a unique place for women to recover from addiction and the co-occurring disorders that fuel them. Treatment and supports address physical and spiritual health, and are personalized for the whole woman, not just the addiction. For mothers, the benefits they and their children receive by staying together are life-changing for both.

Each resident has a personal addiction counselor for one-on-one therapy and guidance. Daily schedules are highly-structured and focus upon personal responsibility and empowerment as well as the dynamics of addiction, relapse and recovery.

On nearly 7 acres, the new Women's Recovery Center is welcoming and individualized, now offering enhanced therapies including:

- Light Therapy
- Horticultural/Gardening Therapy
- 3-D Virtual Therapy
- Indoor Exercise Therapy - yoga, stretching, weight training & more
- Outdoor Exercise Therapy & 1/2 mile walking & meditation path
- Both private and semi-private bedrooms are available. For mothers and children, spacious Family bedrooms and a well-stocked Playroom allow for personal family space and fun time.
