

## DON PENNINGTON

“Don is nearing the end of his career here at Mind Springs Health, as he approaches retirement. He stepped up to the plate while we were down an IT Director by delaying his retirement in order to ensure that the IT needs of our organization were not neglected.

Don oversaw the move of all technology to the new office in Glenwood Springs.

While this was likely a stressful time, he did amazing job of keeping his cool and getting the tasks at hand completed.”
