

WHITNEY BAKARICH

“We believe that Whitney is one of the most dedicated employees in the company. She is a Day Treatment Alternative clinician who works with the highest-risk kids and families that we see.

Examples of her dedication to her clients include her willingness and follow through in making sure her clients get to school when their parents are unable or unwilling, and she goes to bat for these families, advocating for funding and resources that she knows will help her clients.

Whitney has helped clients secure funding for sports activity fees for kids, a bike for a client in need, and GED fees for another client.

Whitney is well-respected in the community and among her colleagues, and is very deserving of this award.”
