

Sheri Geer

Sheri Geer works above and beyond every single day. She not only reminds clients of their appointments and follows up when they miss one, but she also goes to their homes to see if they need help getting to an appointment or takes an iPad to them so that they can have a Zoom session. Sheri spends time talking to accounting and to insurances to help clients get the services they need, and doesn't give up until she is able to find a solution for the client, seeking exemptions and single case agreements when necessary. Finally, Sheri does a great job representing Mind Springs Health in the community and at local meetings/events. She makes above and beyond the rule, rather than the exception.
