

Taylor Walker

Taylor went well Above and Beyond her normal work duties in this quarter. Taylor, whose normal assignment is to manage the schedule and assist with crisis services for the 9 rural Counties, filled in at least 25 separate 12 to 24 hour shifts in late April, May and early June. She traveled to Routt County and stayed with a friend, taking crisis calls while maintaining her regular job duties. In addition, Taylor's supervisor was out on FMLA so she was also managing extra duties helping supervise and problem solve for and with the other team members who report directly to her supervisor. Taylor handled all of these extra duties with a high level of skill, patience and compassion. She clearly deserves an Above and Beyond award for this quarter.
